WATER REGULATIONS ADVISORY SCHEME LTD. (WRAS)
MATERIAL APPROVAL

The material referred to in this letter is suitable for contact with wholesome water for domestic purposes having met the requirements of BS6920-1:2000 and/or 2014 'Suitability of non-metallic products for use in contact with water intended for human consumption with regard to their effect on the quality of the water'.

The reference relates solely to its effect on the quality of the water with which it may come into contact and does not signify the approval of its mechanical or physical properties for any use.

FIBRE

5075

'Temafast Economy'. Green coloured, compressed synthetic fibre sheet material manufactured by calendaring. For use with water up to 23°C. For use only as a jointing/gasket material having been tested at a reduced surface area to volume ratio.

APPROVAL NUMBER: 1605519
APPROVAL HOLDER: TEMAC A. S..

The Scheme reserves the right to review approval.
Approval 1605519 is valid between May 2016 and May 2021

An entry, as above, will accordingly be included in the Water Fittings Directory on-line under the section headed, "Materials which have passed full tests of effect on water quality".

The Directory may be found at: www.wras.co.uk/directory

Yours faithfully
